

PROBLEM SET 3 SOLUTION

April 6, 2021

For every 15° Earth moves
Mars moves 8°

Fill in positions
4-14.

Answers to 8, 9, and 10
on reverse:

- 8. Mostly Mars moves west to east
- 9. Sometimes Mars moves east to west

10. P7-P10 were reversed
so 4 x 2 weeks = 8 weeks

P7 to P12
have been
offset for
legibility
