

Physics, Preparation and Assignment for Friday

Order Textbook

So that we don't have to keep making copies of my copy, right away order:

Six Ideas, 4th Edition, ©2023, Volume C, directly from the publisher:

<https://www.mheducation.com/highered/product/six-ideas-shaped-physics-unit-c-conservation-laws-constrain-moore/M9781260721751.html>

Do not settle for any edition other than the 4th Edition.

In Term 3 we will be using Volume N. You could order the 4th Edition of it now too if you feel like looking that far ahead.

Continue Reading

Go to at least p. 25 of the text. You may need to look ahead a little beyond that to do all the problems.

Plan to Present

One of the five homework problems. Plus(!) one of the three problems at the end of the “lightning calculus refresher” that I wrote up at everyone's request.

Homework Problems

We (hastily) chose:

On pp. 14-15:

1. C1B.4
2. C1M.7
3. C1M.10

On pp. 33-34:

4. C2B.2
5. C2M.1
